DOES YOUR CPT PROGRAM NEED OPTIMIZATION?

HALYARD*

Five questions to ask about your custom procedure tray (CPT) program.

1

Unused components?

- ◯ Too many unused components in your CPTs?
- ◯ Increased costs due to product waste?

2

Time spent?

- ◯ Manual picking of additional components not included in CPTs?
- ◯ Additional workflow steps leading to increased procedural set up times?
- ◯ Staff inefficiency due to manual procedure product prep?

3

Tray variations?

- ◯ Multiple CPT variations for the same procedure?
- ◯ Complexity, additional training, high costs, and increased supplier management?
- ◯ Manual picking, product waste or inventory burdens?

4

Utilization and spend visibility?

- ◯ Unknown sources of waste?
- ◯ Hard to align CPT configurations with clinical needs?
- ◯ Difficulty identifying savings opportunities?

5

Rising costs?

- ◯ Tray configurations infrequently reviewed (4+ years)?
- ◯ Outdated or informal component reviews?

What's your score?

If you answered Yes to

- ◯ 0-1: Your program appears to be performing well.
- ◯ 2-3: You may have some opportunities to reduce waste and drive greater efficiencies.
- ◯ 4+: There is great opportunity for CPT optimization at your facility.
