

IT'S TIME TO MAKE A CHANGE FOR THE BETTER.

In 1998, MicroCool* Surgical Gowns revolutionized the industry with their breathable impervious technology — and remained the standard for comfort and protection in the OR for almost 20 years. Now Halyard has introduced the next generation of protective surgical apparel — **AERO CHROME* Breathable Performance Gowns.**

AERO CHROME* Gowns are rated AAMI Level 4, for fluid protection in the critical zones.¹ The innovative **Cool Shield Core Technology** allows moisture vapor to escape while providing a high-performance fluid and microbial barrier.² Combined with the patented design, color, and knitted V-neck collar,³ the result is an award-winning gown that keeps staff better protected and more comfortable in the O.R.

STILL LOVE YOUR MICROCOOL* GOWNS?

You'll find AERO CHROME* Gowns are just as flame, lint, and abrasion-resistant while even softer, lighter, and more breathable.^{4,5} So if you haven't yet switched to AERO CHROME* performance, now's the time!

Exclusive soft knitted collar design⁷

Unique stretch properties allow a full range of unrestricted motion without tearing⁸

Breathable back panel maximizes airflow⁹

Distinctive color makes it easy to choose the AAMI level 4 protection

Moving from MICROCOOL* to AERO CHROME* Gowns: A Cross Reference.
