

When it comes to sacral pressure injury prevention

WHY CUT CORNERS?

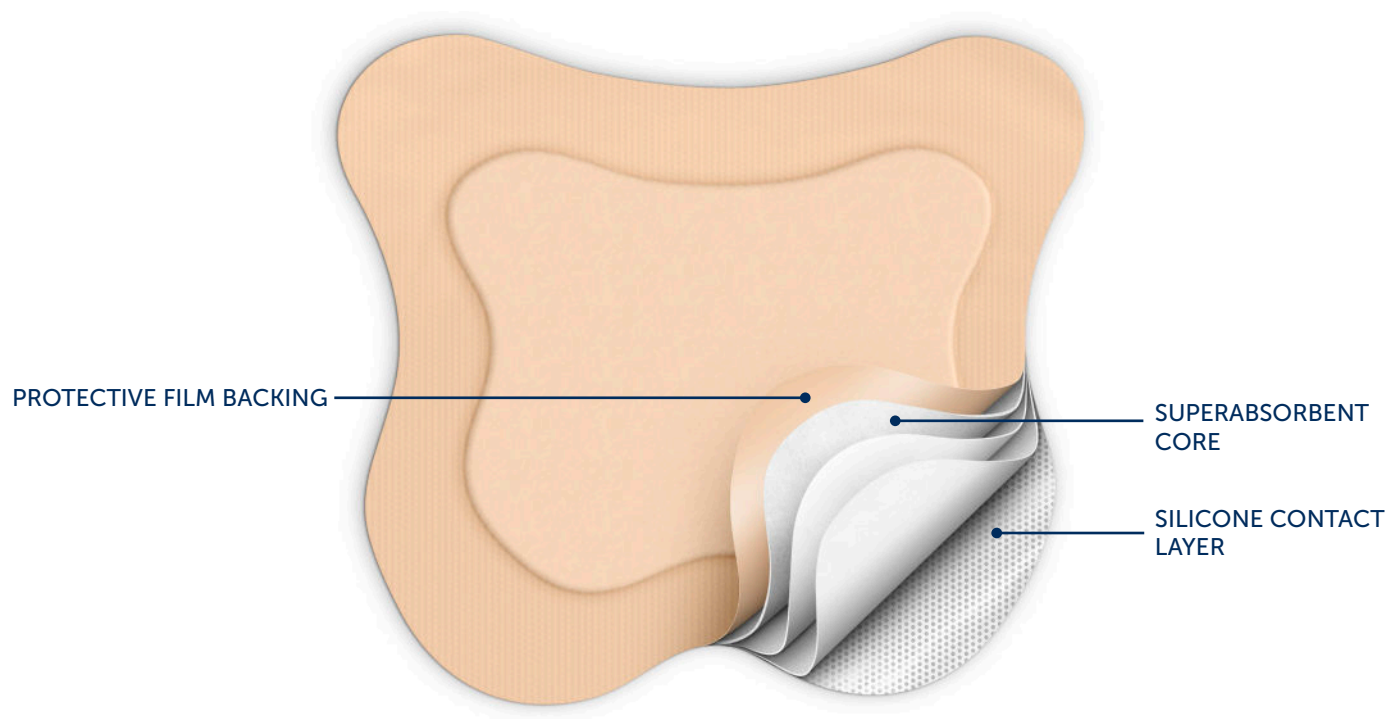

The HALYARD* Silicone Foam Sacral Dressing incorporates years of research and clinical feedback into a unique design that mimics natural anatomy and protects high risk areas.

When added to standard pressure injury prevention protocols, the HALYARD* Sacral Dressing is designed to give clinicians and caregivers peace of mind and confidence that a preventative measure is in place to help protect against pressure injuries.

PERFORMANCE. COMFORT. SAVINGS. TREAT WITH CONFIDENCE.

HALYARD*
