

# YOU NOW HAVE ANOTHER CHOICE IN TRANSPARENT FILM DRESSINGS.

## INTRODUCING HALYARD\* TRANSPARENT FILM DRESSINGS.

We're pleased to introduce HALYARD\* Transparent Film Dressings to our ever-growing portfolio of clinical solutions.

HALYARD\* Transparent Film Dressings provide a secure and flexible fixation of intravascular devices such as I.V., peripheral, central, and pediatric catheters. They may also be used to protect abrasions, cuts, minor burns or blisters.

Backed by a brand you know and trust, HALYARD\* Transparent Film Dressings represent another solution you can rely on from our family of high-quality products.

### KEY FEATURES

- Transparent window-frame style promotes ease of use and provides increased **visibility**.
- **Breathable** film allows moisture vapor and gas to exchange through the dressing for enhanced healing.
- **Waterproof**, microbial barrier prevents excess moisture and foreign contaminants from entering the IV/wound site.
- Gentle on skin and conforms easily to wounds and catheter insertion sites, allowing **freedom of movement** for improved patient comfort.

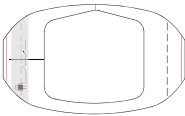

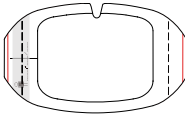

# HALYARD\* TRANSPARENT FILM DRESSINGS: FROM A BRAND YOU TRUST.

## AVAILABLE IN MEDICAL ACTION KITS OR SINGLE STERILE:

- IV Start Kits
- Central Line Dressing Change Kits
- PICC/VAD Access Kits
- Dialysis Kits
