REPOSITIONING GUIDE

HEAD POSITIONING

Recommendations For Use

- Always follow standard facility policies and protocols for safe patient handling
- Use the appropriate HALYARD* underpad according to the size and total weight to be lifted
- Position the patient in the center of the underpad
- Coordinate a four-person lift with one person positioned at each corner of the underpad
- Wear dry gloves and grip the underpad within the dry grip area
- Roll the edges of the underpad to help prevent tearing during lift
