ENDOSCOPY PROCEDURAL KIT SOLUTIONS

72129 Basic Lower Kit

72100 Bleed Kit

Gain efficiency and achieve SGNA Standards* compliance with Medical Action solutions.

Let *us* take care of your procedure set up while *you* take care of the patient.

Make our 30+ years of experience work for you with procedural kits!

Medical Action Endoscopy Procedural Kits can help you with:

- **Infection Control**
Reduce the risk of infection by ensuring compliance with SGNA Standards* for every patient, every procedure, every time.
- **Consistency of Care**
Avoid variations in your procedure set up, ensuring consistency of care for the patient.
- **Convenience**
Eliminate the hassle of storing and gathering multiple components with our all-in-one kit solution.
- **Productivity and Cost Effectiveness**
Expedite room turnover and dedicate more of your time to patient care.
- **Customization**
Leverage our customization capability to build a kit that fits your specific needs.

*Standards of Infection Control in Reprocessing of Flexible Gastrointestinal Endoscopes, SGNA ©2008

ENDOSCOPY PROCEDURAL KIT SOLUTIONS

Medical Action Endoscopy Procedural Kits feature the Medical Action Endoscope Transport Pad as a convenient, safe, and effective way to transport your endoscope for cleaning.

- Convenient pull strings fully secure your endoscope within the pad.
- Soft, absorbent padding and a waterproof barrier protect the endoscope, the clinician, and the surrounding environment during transport.
- Disposable pad eliminates the need to stock and manage transport bins, allowing more time for patient care.
