

PURPLE NITRILE* MAX

Powder-Free Exam Gloves

THE NEW STANDARD FOR PROTECTION IN THE STERILE PROCESSING DEPARTMENT.

Once again, Halyard Health proves "Purple Means Protection" with the introduction of PURPLE NITRILE* MAX, the newest member of our single-use exam glove family. It was designed specifically to meet the increased protection needs of Central Sterilization technicians.

Durable, easy-to-don PURPLE NITRILE* MAX offers CS techs these critical safety features:

Longer Length – PURPLE NITRILE* MAX cuff extends a full 16 inches, providing the right level of protection from dangerous microorganisms, all the way to the mid-forearm.

Heavier Weight – At 20 grams, PURPLE NITRILE* MAX is more than twice the weight of PURPLE NITRILE-XTRA*, for added confidence when handling instruments and decontamination chemicals.

Thicker Fingertips – Its increased fingertip thickness provides almost double the protection of any other exam glove in the Halyard portfolio.

Fully Textured – PURPLE NITRILE* MAX features fully textured fingertips and palm, designed for excellent wet and dry grip.

NEW!

PURPLE NITRILE* MAX POWDER-FREE EXAM GLOVES

With PURPLE NITRILE* MAX, CS techs can be sure they're getting the protection they require.

The savings realized from using a disposable exam glove compared with the costs associated with reusable industrial or sleeve gloves make PURPLE NITRILE* MAX an excellent value.

PURPLE NITRILE* MAX Powder-Free Exam Gloves
